

EFFECTIVE | COMMAND CANADA

Effective Command Instructor Course

The Certified Instructor course will teach your Training Officers how to facilitate Best Practice Incident Command training using the Effective Command tool kit. This hands on course will cover the following learning outcomes:

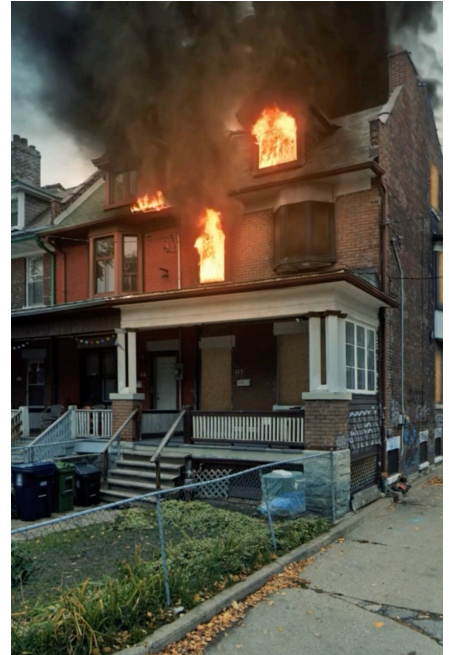

- **Explain why there is a need for command training and assessment**
- **Recognize the cognitive processes involved in dealing with incidents**
- **Facilitate and support a simulation in the context of training and assessment**
- **Adapt the EC Training and Assessment Portal Videos**
- **Conduct an assessment against the EC Behavioural Markers utilizing the Training and Assessment Portal Videos**
- **Supportively conduct a post assessment debrief**

It will build upon any existing Incident Command curriculum currently in use within your department and provide training officers with the skills and resources to deliver immersive simulations to further develop and consolidate the command skills of your officers.

The course focuses on the application of decision making behaviours and rationalised actions during the development of
'All Hazards Commanders'

Officers who have the ability to deal with all incident types confidently & competently.

Develop Confident & Competent Officers who can deal with the unexpected!

Price - \$2000. can be booked via Oafc website:
